

HYUNDAI

Rechargeable Li-polymer Ba

Model Name: NV-3285128-2S

NOM 7.6V \approx 5000mAh 38Wh

Max charger Voltage: 8.7V

Store between 0°C-60°C 32°F-140°F

Please refer user manual or follow local c
and/or regulations for disposal

DongGuan Novel Battery Technology C

Date: 2020.07

Battery says max charger
volts is 8.7 v. So why is
the charger that came
with it a 12 volt charger ?
